## SIR WILLIAM COXEN TRUST FUND

Trust Objectives: -

- Income must be applied for the benefit of any orthopaedic hospital in England and other charitable institutions carrying out similar work (with preference being given to the Royal National Orthopaedic Hospital of Great Portland Street).
- In making his bequest, Sir William had in mind that young children up to the age of 14 should be periodically examined to see that they are growing into healthy men and women and that correction in any faults (orthopaedic) that may arise in them should be made.

Please note preference will be given to applications which are:-

- For an orthopaedic condition;
- For the prevention of an orthopaedic condition; and
- For children up to the age of 14.
