

Grow some garlic shoots

1. Ask an adult for some garlic cloves.
2. Find some small pots and fill them with a little bit of water.
3. Cut a piece of cardboard and make a slit in the middle – fit the garlic clove so only the bottom is touching the water.
4. Leave the pot on a sunny window ledge – it should start to grow a green shoot!

The City of
London protects
and manages
14 green spaces
in and around
London.
