Purpose of Committee

1. The Epping Forest Consultative Committee will consider and discuss areas of current concern or debate at Epping Forest – particularly those due to be raised at Epping Forest and Commons Committee.
2. Minutes of meetings and outcomes of discussions will be considered by the Epping Forest and Commons Committee in a public report to inform decision making.
3. The EF Consultative Committee is not a formal decision making body, but views will be noted in formal reports to the Epping Forest and Commons Committee.
4. By the fourth meeting, the EF Consultative Committee must agree a code of conduct, minimum attendance and quorum details and any other outstanding matters of order for adoption.

Scheduling, location and public access

5. The first meeting will be scheduled at Loughton (as far as is possible), as the geographic centre of Epping Forest, in autumn 2017.
6. There will be a minimum of three meetings a year thereafter.
7. Should a change of frequency or location, including peripatetic meetings be preferred by this forum, that request must be made to the Epping Forest and Commons Committee.
8. Meetings will be held in public (numbers subject to venue capacity). Initially, public questions are at the discretion of the Chairman but more formal allocation of time for public questions to be considered when deciding other matters of order.

Allocation of positions

9. The EF Consultative Committee will have representation from Chairman, Deputy Chairman, Verderers and other members of the Epping Forest and Commons Committee where interested.
10. The Chairman of Epping Forest and Commons Committee will also chair these meetings, or Deputy Chairman or other nominated official in their absence.
11. The Superintendent of Epping Forest and other City of London officers will attend as required.
12. The meetings are to be administered by a representative of City of London Town Clerks Department.

13. Attendants must be nominated members of groups holding a specific interest in Epping Forest, either with large membership, a broad geographical spread across the Forest and with knowledge or interest in the themes of heritage; recreation/sport; conservation; general/informal use or voluntary and friends groups.
14. Tenants, business partners or other organisations with commercial interest in Epping Forest (or wider City of London Open Spaces) will not be invited to attend as other routes exist for such input.
15. Groups nominating a representative must be formal, constituted organisations.
16. Invitations to express interest and to nominate representatives will be advertised through print media, social media, email and direct correspondence by City of London. Applications will require details of how the nominating organisation meets the above criteria.
17. A balance of themes of interest is hoped to be met as follows:

| | |
|---|----|
| Conservation <i>Conservation groups in Forest, or with wider remit</i> | 3 |
| Friends/Voluntary <i>Formal working groups e.g. litter pickers groups, 'Friends of' etc.</i> | 3 |
| Heritage <i>Historical societies, rural preservation etc.</i> | 2 |
| Informal users <i>Schools, Youth groups, families associations, local forums and interest bodies</i> | 2 |
| Recreation <i>Recreational user groups – e.g. walkers, riders, cyclists</i> | 3 |
| Sports <i>Formal organised sports on Forest e.g. Golf, Football, cricket running etc.</i> | 3 |
| Total | 16 |

18. Should more expressions of interest be received than can logistically be accommodated, selection will be made by members of the Epping Forest and Commons Committee by the following (not in order of importance):
 - Size of membership
 - Geographical area of interest (i.e. area of Forest covered)
 - Theme of interest
 - Record of attendance (once established)
19. Epping Forest and Commons Committee may appoint further members or co-opt representatives (for example subject matter experts) to attend where it deems appropriate.
20. The Consultative Committee will serve as established for three years, after which the invitation and nomination process outlined above will be repeated.
